

Zip-O-Laminators specializes in custom glulam beams. They are a reliable source for personalized projects, producing beams for homes, commercial buildings, and more. With in-house kiln operation, they control the quality and moisture of their materials.

Their products include large beams, up to 33 inches wide and 111 inches deep, able to span over 115 feet. They also handle curved beams. Certified by the A.P.A.- The Engineered Wood Association, **Zip-O-Laminators** uses quality Douglas fir and Alaskan Yellow Cedar and can produce their own lamstock from Zip-O-Log Mills.

The company ensures on-time delivery, avoiding costly construction delays. They oversee the process from material sourcing to delivery, aiming for top service. **Their ability to tackle challenging projects sets them apart in the industry.**

FSC, SFI and PEFC certified for environmentally responsible glulams (FSC® C157387). Our sister company **Zip-O-Log** has 80+ years experience supplying wholesale Doug fir timbers.
